

HELPING TO MINIMIZE TAXES WHILE INCREASING CASH FLOW

At RTBH, we are definitely not your ordinary, everyday accounting firm. Sure, we are capable of preparing all of your business and individual tax returns, but we can offer you so much more than that. We want to be more than the people you call to help solve a problem. We want to be there to help prevent problems and to be a partner in your success by helping to minimize the tax you pay while increasing your cash flows through proper planning.

We keep up with the almost constant tax law changes so you don't have to. We go the extra mile to understand the law and how it will affect you – even going as far as bringing in the author of the law to help explain it to us. We strive to keep our clients informed and to be attentive to their needs. Our size provides us the resources necessary to stay ahead of the curve in this ever changing environment while also allowing us to be responsive to our clients' needs.

We provide a full array of tax services, ranging from advising at the start up of a business, to income tax planning and preparation as well as providing IRS representation should the need ever arise. Our professionals are experienced in corporate, partnership and individual taxation as well as estate, gift and trust taxation.

Our client base spans many industries, and this has helped us to gain the experience necessary to provide you with the expertise that you expect and deserve. We are also experienced in providing multi-state tax planning and preparation services – a growing segment of our business as clients engage in more interstate commerce. Additionally, we have the ability and resources to search and find the answers to the most complex tax questions.

Whatever your needs are, we want to work with you to develop a customized plan to meet your individual or business needs.
